Professional Summary

Senior Full Stack Developer with 7+ years of experience building scalable web applications using React, FastAPI, and Python. Strong expertise in REST APIs, PostgreSQL, Docker, AWS, and CI/CD pipelines. Experienced in leading technical discussions with clients and engineering teams, writing technical documentation, and delivering production-grade software solutions.

Technical Skills

- **Frontend:** React, TypeScript, Redux, Next.js, TailwindCSS
- **Backend:** Python, FastAPI, Node.js, REST APIs, GraphQL
- **Databases:** PostgreSQL, MySQL, Redis
- **Cloud & DevOps:** AWS (EC2, S3, Lambda, RDS), Docker, GitHub Actions
- **Tools:** Git, GitHub, GitLab, Postman, Cursor AI, Copilot
- **Testing:** Pytest, Jest, React Testing Library
- **Languages:** English (C2), French (Professional), Arabic (Native)

Professional Experience

Senior Full Stack Developer — TechNova Solutions Jan 2022 – Present

- Developed scalable SaaS platforms using React and FastAPI serving 50k+ users.
- Designed RESTful APIs and optimized PostgreSQL queries reducing response time by 40%.
- Led architecture decisions and technical planning with stakeholders and product teams.
- Implemented CI/CD pipelines using GitHub Actions and Docker deployments on AWS.
- Wrote comprehensive API documentation and technical specifications.

Full Stack Developer — Digital Factory Tunisia Jun 2019 – Dec 2021

- Built ERP modules and internal tools using React, FastAPI, and PostgreSQL.
- Integrated third-party APIs and payment systems.
- Collaborated with UI/UX teams to improve frontend architecture and performance.
- Participated in code reviews and Agile sprint planning.

Backend Developer — Innovatech

Sep 2017 – May 2019

- Developed backend microservices with Python and FastAPI.
- Maintained cloud infrastructure on AWS and automated deployments.
- Improved database indexing and backend scalability.

Education

Engineering Degree in Computer Science

National Engineering School of Sousse

2017

Projects

AI Recruitment Platform

- Developed an AI-powered recruitment system with CV parsing and candidate scoring.
- Built ranking algorithms matching candidates with job requirements.
- Integrated PDF CV upload and automated skill extraction.

ERP Management System

- Designed modular ERP software for HR and finance management.
- Implemented authentication, reporting dashboards, and API integrations.

Certifications

- AWS Certified Cloud Practitioner
- Meta Front-End Developer Certificate
- Docker & Kubernetes Essentials

Additional Information

- Available for remote and hybrid work
- Strong communication and leadership skills
- Experience working with international clients
